### CURRENTS.

**Fay's Prolific.**—Originated in Chautauqua Co., N. Y. A cross between Cherry and Victoria. Of enormous size, fine flavor, and claimed to be twice as prolific as the Cherry. Universally commended by those who have seen or had experience with it. A great acquisition. Regular price 40c each.

**White Grape.**—Very large; yellowish white; sweet, or very mild acid; excellent quality and valuable for the table. The finest of white sorts. Very distinct from White Dutch, having a low, spreading habit, and dark green foliage. Very productive. Regular price 12½c each.

### RASPBERRIES.

**Gregg.**—Of great size; fine quality; very productive and hardy. It takes the same position among black caps as Cuthbert among the red sorts. No one can afford to be without it. Regular price \$1.00 per dozen.

**Cuthbert.**—(Queen of the Market).—Large, conical; deep, rich crimson; firm; of excellent quality. A vigorous grower, entirely hardy, and immensely productive. "I regard it as the best raspberry for general culture."—Chas. Downing. "Now regarded by careful and experienced horticulturists as the best raspberry in existence for general cultivation. "I have it in a specimen bed with twenty-five other kinds, and it surpasses all others."—E. P. Roe. Regular price \$1.00 per dozen.

### GOOSEBERRIES.

**Industry.**—Large; oval; dark red, hairy; rich and agreeable. Although this is a foreign variety it has succeeded admirably on our grounds, where it has fruited extensively for several years. We can confidently recommend it, both for the garden of the amateur and the market plantation. The plant is remarkably vigorous and productive, and the fruit large, beautiful and of excellent quality. Where shoots are left long, they fruit to the very tips. We regard it as, on the whole, the best foreign Gooseberry ever introduced. Regular price 50c. each.

### BLACKBERRIES.

**Snyder.**—This is the standard early sort and is very popular. This was the first of the hardy kinds that made a sensation over the country. With good culture they are large enough to gratify the most exacting. Like old dog Tray it is ever faithful. The severest frost does not bite it. It will keep the wolf from the door. I have always been an admirer of this staunch old variety. I never saw a rusty cane among it. Season early, oblong oval in form. Regular price \$1.00 doz.

**This gives you a choice selection of small fruits at almost one half of regular rates.**

Remember we grow all our own trees and plants and when we say our stock is first class we know what we are talking about.

Nothing less than the full collection will be sold.

**Ask Agent to Show you Colored Plates of this Collection.**

Do not ask agent to reduce the price on any collection, we have put them pown to "Rock Bottom."
